

PANSAVER[®] ECO[™] PATENTED

A Bio-Based Alternative to Ovenable Pan Liners

plant pan liner

Plant Pan Liner is a registered trademark of M&Q Packaging Corp.

100% recyclable pan liner

Derived from
Canola Oil

Pioneering the sustainable effort in the pan liner category, PanSaver has developed a Bio-Based Ovenable (400°F / 203°C) Pan Liner.

Giving You Green Peace of Mind!

PANSAVER[®] ECO[™]

A Bio-Based Alternative to Ovenable Pan Liners

- Smaller carbon foot print due to PanSaver[®] ECO[™] being derived from canola oil (a sustainable resource) as opposed to a petroleum based material.
- Lower adhesion to protein based foods; therefore, **no sticking**.
- Stronger seals, better puncture and tear strength; therefore, **a more durable liner** resulting in fewer liner change-outs.

PanSaver[®] ECO[™] is the premium liner in the market place and is a nice addition to the PanSaver family of products.

| Description | Cs/ # | Cs/pack |
|--------------------|-------|---------|
| Full Pan 2.5" | 45042 | 100 |
| Full Pan 4" | 45044 | 100 |
| Full Pan 6" | 45048 | 50 |
| Third Pan 6" | 45010 | 100 |
| Bun Sheet Pan | 45020 | 100 |
| Half Pan 4" & 6" | 45030 | 100 |
| Sixth Pan 6" | 45050 | 100 |
| 4 Quart Round | 45012 | 100 |
| 6 & 7 Quart Round | 45015 | 100 |
| 9 & 11 Quart Round | 45018 | 100 |
